Chad Marshall is the President/CEO of Marshall Diversified, Inc. an information systems security consultancy in North East, MD.

Chad's industry background is founded in Fortune 100 financial firms where he has served in roles relating to systems analysis, systems engineering, business systems integration, consulting, and service delivery management. During the past 5 years, Chad has run the security gauntlet, pioneering new approaches in OS hardening, service and hotfix management, and tier-3 production support through Windows scripting and automation on high cost/high value production systems.
